

Moving away from traditional payments while adapting to a new normal.

CardConnect is here for you during these unprecedented times.

Our CardPointe platform can accommodate your evolving payment acceptance needs. Packed with powerful features like real-time reporting, patented security and a variety of payment acceptance tools, CardPointe has your business' back – no matter what. Accept payments anywhere, while prioritizing the health and safety of your employees and customers:

CardPointe Virtual Terminal: Securely accept credit/debit cards over the phone by keying in cardholder information, bypassing the need for your employees to handle customer's credit cards - plus, create customer profiles and store credit cards for recurring billing.

- **Complimentary for all CardPointe merchants, with EMV compatibility as well**
- **Perfect for:** doctor offices, businesses taking over-the-phone orders for pick-up/delivery, telesales reps working from home

CardPointe Mobile: The **free** CardPointe Mobile app (available on the Apple and Google Play stores) extends the benefits of the CardPointe platform to a mobile phone. Securely key in cardholder information or accept contactless (Apple and Google Pay) payments via the CardPointe Mobile device to avoid the transfer of cards between your employees and customers.

- **Perfect for:** businesses that are restricting in-store payments, such as curbside delivery services (i.e. restaurants, grocery stores, etc.)

CardPointe Terminal: In addition to EMV and magstripe acceptance, the new CardPointe Desk Terminals offer contactless payment acceptance, removing the need for your employees to handle customer's credit cards

- **Perfect for:** restaurant, grocery and retailer pickup orders

CardPointe Hosted Payment Page: Take your business online with the CardPointe HPP. With a few clicks of your mouse, you can add a pay/donate button to your website. Don't have a website yet? You can invoice your customers directly with a custom HPP link.

- **Perfect for:** retailers, nonprofits and emergency repair maintenance services

CardSecure: Our integrated payment security platform protects every transaction processed on the CardPointe Gateway through data breach protection and PCI scope reduction. With patented tokenization technology, CardSecure defends cardholder data at the point of interaction by replacing sensitive info with an irreversible token and encrypting data at the point of interaction.

We're here to help keep your business running safe and smoothly.
