

PS2011 Faculty, Author and Planner Conflict Disclosure and Resolution

Title: Plastic Surgery 2029 Dates: 1/1/2029-1/7/2029 City, ST: Arlington Heights, Illinois															
							<i>Resolutions F1-F4 are for: FACULTY / DOCTORS / SPEAKERS / MODERATORS</i> <i>Resolutions P1-P2 are for: PLANNERS / AUTHORS / COMMITTEE / STAFF</i>	Suggested Resolutions LEGEND		1• Limit the sources and content for presentation and materials to those considered as based on the best available medical and scientific evidence culled from studies and/or literature. Use generic names whenever possible: refrain from referencing name-brand products or entities that produce, market, re-sell or distribute health care goods or services consumed by, or used on, patients. This may require revising the presentation and/or materials originally submitted for committee review.	2• Limit the content of the presentation and materials to a report on findings, without making recommendations regarding products or services.	3• Select another individual, without a relevant conflict, to develop and deliver the necessary content (i.e. replace faculty member/author).	4• Divest oneself of relevant financial relationship(s) (i.e. discontinue contracted services so no incentive remains to introduce bias).	(planners)1• Whenever possible, select faculty who do not have any relevant conflicts from a pool of expert/qualified individuals to deliver content.	(planners)2• Recuse self from involvement in activity, or the portion thereof, that relates to the planner's conflict.
