2017 Plastic Surgery Statistics

About the American Society of Plastic Surgeons

The American Society of Plastic Surgeons®

ASPS®, a non-profit organization, supports members in their efforts to provide the highest quality patient care through education, research and advocacy. It is the only organization with two decades of plastic surgery statistics – 1992-2015. ASPS is the largest organization of board-certified plastic surgeons in the world. With more than 7,000 members, the Society is recognized as a leading authority and information source on cosmetic and reconstructive plastic surgery. ASPS comprises more than 94 percent of all board-certified plastic surgeons in the United States. Founded in 1931, the Society represents physicians certified by The American Board of Plastic Surgery, Inc.® (ABPS®) or The Royal College of Physicians and Surgeons of Canada.

The ASPS mission is to advance quality care to plastic surgery patients by encouraging high standards of training, ethics, physician practice, and research in plastic surgery.

ASPS Member Surgeons are uniquely qualified to perform cosmetic and reconstructive plastic surgery on the face and all areas of the body.

Consumers can visit the ASPS at PlasticSurgery.org to find ASPS Member Surgeons in their area or learn more about cosmetic and reconstructive plastic surgery, like us on [Facebook.com/PlasticSurgeryASPS](https://www.facebook.com/PlasticSurgeryASPS) and follow us at [Twitter.com/ASPS_News](https://twitter.com/ASPS_News).

ASPS Spokespersons Network

The ASPS Spokespersons Network is a valuable plastic surgery resource. It comprises more than 100 plastic surgeons from across the United States and Canada trained and available to assist journalists.

These spokespersons provide expert perspectives on a broad range of plastic surgery topics including procedural details, the patient-physician relationship, emerging trends, teens, and minorities.

They are also knowledgeable about the Society's positions on health care reform, scope of practice and other issues that affect patient care.

To arrange interviews with members of the ASPS Spokespersons Network, contact the ASPS Public Relations Department.

PlasticSurgery.org

The ASPS online newsroom is the most comprehensive site for journalistic research on cosmetic and reconstructive plastic surgery on the Internet. The latest news releases and the online version of the National Clearinghouse of Plastic Surgery Statistics are available.

Full color graphics and statistical graphs can be downloaded or are available by contacting the ASPS Public Relations Department.

Pre- and Postoperative Photos and B-Roll

ASPS has a library of pre- and postoperative images and B-roll available to the media by contacting the ASPS Public Relations Department.

ASPS Member Surgeons have the following qualifications:

- ✓ Are **certified** by The American Board of Plastic Surgery and **trained** specifically in plastic surgery.
- ✓ Have at least **6 years** surgical training, minimum of 3 years plastic surgery training.
- ✓ Operate only in **accredited** medical facilities.
- ✓ Adhere to a strict code of **ethics**.
- ✓ Fulfill continuing education requirements, including **patient safety** techniques.
- ✓ Are **partners** with patients in cosmetic and reconstructive plastic surgery

2017 Plastic Surgery Statistics

Methodology and Validity

Methodology

Since 1992, the American Society of Plastic Surgeons® (ASPS®) has been the source of cosmetic and reconstructive plastic surgery statistical trends in the U.S., and this series represents two decades of procedural data. ASPS has partnered with Data Harbor Solutions, a health care industry data management and technology development company, to ensure objectivity in the gathering, analysis and publication of its procedural statistics.

Since 2000, the report represents a universal and comprehensive estimate of cosmetic and reconstructive plastic surgery procedures performed by ASPS Member Surgeons as well as other physicians most likely to perform plastic surgery procedures. These physicians are all certified by American Board of Medical Specialties (ABMS) recognized boards.

ABMS is the umbrella organization for the 24 approved medical specialty boards in the United States. Established in 1933, ABMS serves to provide information concerning issues involving specialization and certification in medicine. The American Board of Plastic Surgery® (ABPS®) represents physicians who are certified by ABPS®, the only ABMS member board that certifies surgeons in plastic surgery of the face and entire body.

ASPS offers the most comprehensive, reliable statistics on cosmetic and reconstructive plastic surgery procedures performed in the United States. The annual questionnaire was distributed to more than 24,500 ABMS board-certified physicians (An online and faxed version of the questionnaire were made available. A total of 571 active physicians returned questionnaires. Overall, 783 active physicians were included in the final sample). This data is combined with the first online national database for plastic surgery procedures Tracking Operations and Outcomes for Plastic SurgeonsSM (TOPSSM).

All responses are aggregated and extrapolated to the entire population of more than 24,500 board certified physicians most likely to perform cosmetic and reconstructive plastic surgery procedures, resulting in the most accurate census available.

Validity

Results of the survey are based on a 95 percent confidence level with a ± 4.05 percent margin of error.

2017 Quick Facts

Cosmetic and Reconstructive Plastic Surgery Trends

Percentage change 2017 vs. 2016

- 17.5 million cosmetic procedures** ↑ 2%
- **1.8 million cosmetic surgical procedures** ↑ 1%
- **15.7 million cosmetic minimally-invasive procedures** ↑ 2%
- 5.8 million reconstructive procedures** ↑ no change

2017 Top 5 Cosmetic Surgical Procedures

	2017 vs. 2016
Breast augmentation (300,000)	↑ 3%
Liposuction (246,000)	↑ 5%
Nose Reshaping (218,000)	↓ 2%
Eyelid surgery (209,000)	no change
Tummy Tuck (129,000)	↑ 2%

Breast augmentation continues to be the top cosmetic surgical procedure and has been since 2006. Silicone implants were used in 87%, and saline implants in 13%, of all breast augmentations in 2017.

Cosmetic surgical procedures, not among the Top 5, with notable gains in 2017 include:

- Buttock augmentation w/ fat grafting – up 10%
- Breast Reduction – up 11%
- Hair Transplantation – up 19%

2017 Top 5 Cosmetic Minimally-Invasive Procedures

	2017 vs. 2016
Botulinum toxin type A (7.2 million)	↑ 2%
Soft tissue fillers (2.7 million)	↑ 3%
Chemical peel (1.4 million)	↑ 1%
Laser hair removal (1.0 million)	↓ 2%
Microdermabrasion (740,000)	↓ 4%

Facial rejuvenation procedures continue to experience growth, as 2017 marked the highest number of botulinum toxin type A injections to date, with over 7.2 million injections!

2017 Top 5 Reconstructive Procedures

	2017 vs. 2016
Tumor removal (4.5 million)	no change
Laceration repair (253,000)	no change
Maxillofacial surgery (204,000)	↑ 1%
Scar revision (182,000)	↑ 1%
Hand surgery (138,000)	↑ 2%

Tumor removal is overwhelming the top reconstructive procedure performed every year with approximately 4.5 million procedures in 2017!

2017 Quick Facts

Cosmetic Plastic Surgery Demographic Trends

Age

13-19 year olds 2017 vs. 2016

Make up the least number of cosmetic procedures – only 1% of the total. Some of the most common procedures for teens were: nose reshaping, male breast reduction, ear surgery, laser hair removal and laser skin resurfacing.

229,000 total cosmetic procedures	no change
66,000 surgical	↓ 1%
163,000 minimally-invasive	no change

20-29 year olds 2017 vs. 2016

827,000 total cosmetic procedures	no change
260,000 surgical	↑ 2%
566,000 minimally-invasive	↓ 1%

30-39 year olds 2017 vs. 2016

2.8 million total cosmetic procedures	↑ 2%
387,000 surgical	↑ 2%
2.5 million minimally-invasive	↑ 2%

40-54 year olds 2017 vs. 2016

Make up the majority of cosmetic procedures – 49% of the total.

7.7 million total cosmetic procedures	↑ 2%
564,000 surgical	↑ 1%
7.1 million minimally-invasive	↑ 2%

55 and over 2017 vs. 2016

4.1 million total cosmetic procedures	↑ 2%
384,000 surgical	↓ 1%
3.8 million minimally-invasive	↑ 2%

Gender

Female 2017 vs. 2016

92% of all cosmetic procedures	
14.5 million total cosmetic procedures	↑ 2%
• 1.4 million surgical	↑ 1%
• 13 million minimally-invasive	↑ 2%

Male 2017 vs. 2016

8% of all cosmetic procedures	
1.3 million total cosmetic procedures	↑ 1%
• 214,000 surgical	no change
• 1.1 million minimally-invasive	↑ 1%

Ethnic

2017 vs. 2016

Caucasians (12.3 million)	↑ 8%
Hispanics (1.9 million)	↑ 16%
African Americans (1.6 million)	↑ 17%
Asian Americans (1.1 million)	no change

Did you know...

- \$16.7 billion was spent on cosmetic procedures in the U.S.
- Region with the most cosmetic procedures performed in the U.S. is Mountain/Pacific – 5 million procedures
- Patients having multiple procedures at the same time are up 4%
